# What is important?

- **Research & Innovation are the base for a sustainable future**
- **Many aspects are relevant for sustainability research**
  - **Boundary conditions** (political & legal structures, institutions,...)
  - **People** (informed citizen, committed local authorities, qualified operational personal, ...)
  - **Costs** (i.e. cost-covering price, higher investment costs for innovative systems, long/medium-term advantages, energy efficiency, operating costs, life cycle,...)
- **Outlook:**  
**Future cooperation projects should consider all aspects**
