

GERMANY ALUMNI-TALK

VIETNAM'S GREEN TRANSITION

Vietnam wants to be climate neutral by 2050. But how? What will have to be done now? How can environmental responsibility be combined with economic progress? Can this serve as a job accelerator for Vietnam? What role can universities and international (academic) cooperation play in this?

If you have an exciting research project, a creative solution to green transition of Vietnam, if you are enthusiastic about sharing insights, experience and visions for a greener Vietnam, we invite you to pitch to us a proposal on how to set up an exciting, interactive exchange on your topic of choice.
